

WORKING WITH SOLID CARBIDE ROTATING TOOLS ?

Implementing ideas requires the right tools for turning, milling, drilling and cutting threads. Mechmatrix has not only the right high-tech tools, but also advises and accompanies its customers from the initial idea to the specific application - and that always efficiently and productively. Getting control of your tooling will increase your efficiency. At Mechmatrix, we see after sales services as a dependable way to deliver value to our customers. Using our competency of product and process knowledge we aim to understand and then solve specific problems encountered by you.

INCREASE YOUR MACHINING PROFITABILITY

Mechmatrix is more than a quality guarantee. It is our promise to you that there will always be a specialist nearby who understands your production, business and industry.

- High quality service and support based on our comprehensive range of high performance tool systems.
- Tool selection
- Cycle time study
- Proving out of complements on machine
- Process improvement recommendations
- Winning edge in quality, cost, pre & post services

The key to manufacturing economics lies in this dedication and relies on the cross section between your expert knowledge and our expert knowledge. Together we will optimize production - getting the right tools doing the right things. by up to 10-15 percent instead.
